CAREER OBJECTIVES

- Dynamic and motivated Full Stack Developer with 1 month of hands-on experience in developing web applications. Capable of collaborating effectively in team environments and demonstrating a proactive approach to problem-solving. Eager to continuously learn and adapt to emerging technologies to drive impactful solutions and exceed organizational goals.

TECHNICAL SKILLS

Frontend/Libraries: (HTML/CSS, JavaScript, ReactJS, TypeScript, MaterialUI, Redux)
Backend: (NodeJS, ExpressJS, TypeScript)
Database/Tools: (MongoDB, MySQL, GIT, Postman, REST)

EXPERIENCE

Backend Intern at OnlineSolutionHub   Feb 2024 - March 2024

- Worked in an agile development environment to write production-ready code with a team of 3.
- Build The user friendly MERN project that aims to build a mini ATM system using Aadhaar authentication and Eko API integration.
- The system allows users to authenticate using Aadhaar and perform banking transactions seamlessly via the Eko API, ensuring a secure and convenient banking experience.

PROJECTS

Social Media App ↗ | ReactJs, NodeJs, ExpressJs, MongoDB, Redux, SocketIO

- Developed a feature-rich social media application with intuitive user interfaces with React.js to provide a smooth and enjoyable browsing experience.
- Integrated chat functionality seamlessly using SocketIO within the app to enhance user engagement and foster community interaction.
- Build scalable backend systems with Node.js and Express.js to support growing user bases and ensure high performance.

Real Estate Website ↗ | ReactJs, NodeJs, ExpressJs, MongoDB, Redux, Framer Motion, MantineUI

- Developed a user-friendly interface allowing users to easily search properties based on location, price, size, and other criteria.
- Integrated mapping APIs to display properties geographically, providing users with valuable context and visualization.
- Implemented features such as virtual tours, high-resolution image galleries, and detailed property descriptions to showcase listings effectively.

IMDb clone ↗ | HTML, CSS, Javascript, ReactJs

- Designed and implemented a user-friendly interface resembling IMDb's layout, ensuring intuitive navigation and familiar functionality.
- Integrated APIs to fetch movie data, enabling users to browse and search for their favorite films and TV shows.
- Utilized responsive design principles to ensure seamless accessibility across various devices, including desktops, tablets, and smartphones.

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp - Udemy
- Mastering Data Structures Algorithms using C and C++ - Udemy
